What Biophilia is all About

BIOPHILIA means love of nature. It's the idea that humans have an inherent connection to the natural world and that this connection is vital for our well-being.

At

GREEN BIOPHILIC LIVING

we believe that we are not merely a part of nature but nature itself. This profound interconnectedness between all living and non-living things shapes our respect, reverence, and love for the natural world.

ABOUT GREEN BIOPHILIC LIVING LTD.

Green Biophilic Living was incorporated on September 2023 and registered under and by provisions of the registration of the Company Act.

At Green Biophilic Living, we are more than just a concept; we are the embodiment of a deep connection between nature and human well-being. Guided by this vision

we are dedicated to bringing nature's serenity, harmony, & vitality to your interiors and life, ensuring every space reflects the beauty of our connection with the natural world.

Meet the director

WANGUI MWANGI

**Green Biophilic Living Founder
Bachelor of Arts and Design**

“Biophilia is not just a concept to me; it’s my first child, born of me and in me. My passion for the profound connection between nature and human well-being runs deep, rooted in years of observation of the natural world and research on the countless benefits nature brings to our health and vitality”.

**GREEN BIOPHILIC
LIVING LTD**

Mission

To create internationally resonant awareness with content that echoes the prestigious storytelling of National Geographic on nature and African architecture. We are dedicated to promoting sustainable practices, raising environmental awareness, and mitigating climate change across businesses and communities

Vision

To be the leading force in African Biophilic Design, inspiring global communities to embrace biophilic living, green initiatives, and climate action for a healthier planet.

Values

- Innovation
- Excellence
- Environmental Stewardship
- Collaboration
- Cultural Heritage

Our Services

1. BIOPHILIA CONSULTANCY

We guide you in transforming your spaces through biophilic design, enhancing well-being by seamlessly integrating natural elements into your environment. Whether you're redesigning a space or incorporating nature into your lifestyle, we tailor solutions that bring the outside in.

2. AFRICAN BIOPHILIC DESIGN CONTENT CREATION

We craft engaging visual and written content that celebrates African Biophilic Design, illustrating how culture and nature come together in sustainable architecture. Our storytelling connects with global audiences, promoting cultural and ecological awareness.

3. ONLINE BIOPHILIC COURSES

Our courses offer comprehensive training in biophilic design, from foundational concepts to advanced sustainable architecture. Ideal for professionals and enthusiasts, these courses provide practical tools for creating greener, more harmonious environments with an incline in African Architecture.

Our Services

4. SPEAKING ENGAGEMENTS & WORKSHOPS

Join our expert-led workshops and speaking engagements inspire and educate audiences on the benefits of biophilic design. Learn how to integrate nature into your life and workspaces through interactive sessions and thought-provoking discussions.

5. GREEN BUILDING CONSULTANCY

Specializing in sustainable architecture, we offer expert guidance for businesses looking to create eco-friendly, energy-efficient spaces that prioritize well-being and environmental responsibility. We help you align your projects with long-term sustainability goals.

6. SUSTAINABILITY & GREEN CONTENT FOR COMPANIES

We collaborate with companies to create impactful, sustainability-focused content that drives environmental awareness & community engagement. Our content helps companies showcase their commitment to climateconscious and biophilic initiatives.

OBJECTIVES OF THE BIOPHILIA CONFERENCE & EXPO:

1. Introduce Biophilia to a Wider Audience & Bridge the Knowledge Gap

o Many people feel connected to nature but don't recognize it as biophilia. This expo will break down the science, research, and benefits of biophilia in a way that resonates with everyone—from professionals to everyday individuals.

o Showcase how biophilia is already present in African traditions, architecture, and daily life, making it accessible and relatable.

2. Launch Africa's First Nature-Centered Design Course

o officially introduce GBL's Nature Centered Design course. An introductory course covering biophilia, greenbuilding & traditional African architecture as a climate action mitigation tool and esg achieving tool.

3. Show the Economics of Biophilia: The Business Case for Investors & Developers

o Demonstrate how biophilic design leads to increased property value, energy savings, improved health, and market demand, making it a profitable investment.

4. Enhance African Culture in Architecture, Schools & Learning Spaces

o Reconnect African Indigenous knowledge systems with modern biophilic design, ensuring architecture and learning spaces reflect cultural identity, sustainability, and community well-being.

5. Promote Biophilic Design as a Climate Action Strategy

o Showcase how biophilic urban planning, green infrastructure, and nature-based solutions can help African cities and buildings become climate-resilient.

OBJECTIVES OF THE BIOPHILIA CONFERENCE & EXPO:

6. Foster Business Growth & Industry Collaboration

o Create a platform for architects, designers, policymakers, and investors to drive biophilic-driven real estate, sustainable interiors, and eco-friendly products.

7. Inspire the Future of Biophilic Architecture & Interior Design

o Showcase biophilic African cities, nature-integrated homes, and regenerative urban spaces, proving that modern development can honor tradition while embracing sustainability.

8. Showcase Sustainable & Regenerative Materials

o Highlight eco-friendly African materials such as earth, bamboo, and stone, emphasizing their durability, sustainability, and cultural significance.

9. Drive Policy & Investment in Green Building & Biophilic Solutions

o Engage government leaders, corporate investors, and developers to support biophilic policies, tax incentives, and certification programs that drive adoption at scale.

10. Encourage Nature-Based Learning & Awareness

o Advocate for biophilic education in schools, integrating sustainability, cultural traditions, and experiential nature-based learning into curricula.

A BIOPHILIC AFRICA LAUNCH & EXPO 2025

"Blending African Heritage and
Nature for a Greener Sustainable
Future"

Conference Topics:

1. Understanding biophilic design and its future:

• **Focus:** What is biophilia & biophilic design? Its benefits to us and its financial gains.

2. The Future of Biophilic Design: Innovations in Architecture & Interior Spaces

• **Focus:** Cutting-edge biophilic design strategies in modern buildings, interiors, and urban spaces.

3. Sustainable Products and Materials: The Role of Nature in Green Building

• **Focus:** Exploring sustainable materials, natural textures, and eco-friendly products for construction and interior design.

4. The Intersection of Technology and Biophilic Design

• **Focus:** How technology (e.g., smart green walls, AI-driven sustainability solutions, IoT-integrated wellness spaces) enhances biophilic environments.

5. Biophilic Design for Health and Wellness: A Holistic Approach to Well-being

• **Focus:** The impact of biophilic spaces on mental and physical health, including applications in hospitals, homes, and workplaces.

6. Reconnecting Children with Nature: Teaching African Culture and Sustainability in Schools

• **Focus:** The importance of integrating nature-based learning, African traditions, and sustainability into school curricula.

7. Spirituality, Nature, and Architecture: Designing Sacred and Culturally Rooted Spaces

• **Focus:** Exploring the spiritual and cultural dimensions of architecture, from traditional African sacred spaces to modern biophilic sanctuaries.
